Braun Tassimo 3107 lost instructions My problem is when I plug into the power mains the 4 lights come. Tassimo Coffee Maker pdf manual download. It will help you achieve consistent drink quality and prolong the life of your brewer.

How do I set up my TASSIMO brewer. Whether your TASSIMO brewer is new or has not been used for several weeks, it is necessary to start up the system by using the Service T DISC, stored in the compartment at the rear or side of the brewer, and rinse the water tank with fresh, clean water. Once youve done that, fill the tank with water, select your cup, insert your T DISC of choice into the brewer, and press the button. How do I keep my TASSIMO brewer clean. It is recommended to insert the reusable Service T DISC supplied with the machine and stored in the side or rear of the unit in the brewer every seven days. The barcode reader should be cleaned with a damp soft cloth regularly. All removable parts can be washed by hand, and all but the water tank are dishwasher safe. Why do I need to descale my TASSIMO brewer. All coffee brewers are susceptible to damaging lime scale buildup. Descaling your TASSIMO brewer is essential to increasing the life of your machine. It is recommended to descale the machine every three months, but will depend on your water quality. The brewer will let you know when it needs to be descaled by illuminating the red descale indicator light. How do I descale my TASSIMO brewer. Youll need the Service T DISC and a descaling agent for the process. Use descaling agents outlined in your brewer manual. DO NOT use vinegar to clean your machine, as it will void the warranty. Activate the descaling cycle by holding the start button down for a minimum of 5 seconds. Buy descaler online Detailed instructions can also be found in the Manual or Quick Start Guide. What does it mean when the red indicator light stays on. The descale indicator light remains illuminated red when the brewer needs to be descaled. Note On the oldergeneration Braun brewers, there is no descale warning. Descal your Braun TASSIMO brewer every three months to keep it operating at full potential. What does it mean when the red indicator light is blinking.

The water tap indicator light flashes red when the water tank needs to be refilled, the water level is too low to make a drink, or when the tank is not in place. Always refill the tank with clean, fresh, noncarbonated water. Never use chemically softened water. Note On the oldergeneration Braun machine, all the indicator lights flash when the water tank is empty. What do I do if I havent used my TASSIMO brewer in a while. If your brewer has not been used for several weeks or more, it is necessary to start up the machine by using the Service T DISC, and rinse the water tank with fresh, clean water. What should I do if I have problems with my TASSIMO brewer. Bosch manufactures The TASSIMO system to the highest quality standards. If you have problems with your brewer, please contact the TASSIMO customer service line at 1877TDISCS1 18778347271. Where can I purchase additional or replacement parts. There are certain removable parts that may be replaced if lost or damaged. Please contact the TASSIMO customer service line at 1877TDISCS1 18778347271 to find out if your part is replaceable. My brewer always has the heating light on. What can I do Try turning the brewer off an on again, using the front power switch. If this does not resolve the problem, please call the TASSIMO customer service line at 1877TDISCS1 18778347271 for further assistance. All of the lights on my brewer continue to flash. What can I do Try the following Check that the water tank is full and correctly inserted onto the hook at the rear of the machine. If the water tank is full and correctly attached, check the barcode reader. If the barcode reading window is dirty or if there is condensation present, clean with a soft moistened cloth. If neither of the above work, try repeating the initialization procedure as outlined in the user manual. My drink volume is shorter than normal or the flow of the drink into the cup is very slow.

What can I do Try the following If the water tank it not correctly fitted, the water flow may be restricted. Check that the water tank is full and that the slot is correctly inserted onto the hook at the rear of the machine. The piercer may be damaged or blocked, restricting the flow of the drink. Check the narrower piercer inlet for any signs of damage and the outlet area for any signs of blockage. For damaged piercers, please contact the TASSIMO customer service line for a replacement. For blocked outlets, please thoroughly clean the piercer. Your machine may need to be descaled. It is recommended to descale your machine every three months, but this will depend on your water quality. Please follow the instructions in your user manual to descale your machine. If none of the above suggestions resolve the problem, please call the TASSIMO customer service line at 1877TDISCS1 18778347271. If you have any questions or need help, were a phone call away. Were available 7 days a week at 1877TDISCS 18778347271 MondayFriday 8am to 10pm EST, SaturdaySunday 9am6pm EST or you can contact us here.
